Peri d f r R ply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Conclusion

1. This application is in condition for allowance except for the following formal matters:

The abstract of the disclosure is objected to because it is too long. Correction is required.

See MPEP § 608.01(b).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 11-5-2003 has been considered by the examiner.

Allowable Subject Matter

3. Claims 16-19 are allowed. The claims are allowable over the prior art of record because the prior art does not teach or suggest a toner supply container detachably mountable to an image

Art Unit: 2852

forming apparatus, said toner supply container comprising a container body for containing toner; a shutter for closing and opening an opening which is provided in said container body, said shutter including a first gear portion for meshing engagement with a first gear member, which is provided in the image forming apparatus; a rotatable member, which is rotatable relative to a main body of said toner supply container to produce a driving force for opening and closing said shutter, said rotatable member including a second gear portion for meshing engagement with a second gear member, which is provided in the image forming apparatus, said first gear member and said second gear member being rotatable together; and a projection, which is provided on said rotatable member, for receiving a force for pre-rotating said rotatable member through a predetermined angle in a direction of opening said shutter, from the image forming apparatus in response to a mounting operation of said toner supply container to the image forming apparatus, wherein said rotatable member is rotatable through a predetermined angle in a direction of closing said shutter from a position at which said first gear portion is in meshing engagement with the first gear member, and wherein said projection enables disengagement between said first gear portion and the second gear member so as to substantially prevent said second gear portion from rotating the second gear member in a dismounting operation of said toner supply container from the image forming apparatus.
